

## R110A5-V

110 RM

### HIGHLIGHTS

- Fixed ear type with excellent plant health
- Moderate plant height with excellent roots
- Performs under stress

### POSITIONING GUIDELINES

|                                     |   |
|-------------------------------------|---|
| Irrigated/Productive Fields         | ★ |
| Average/Variable Fields             | ● |
| Less Productive/Stress Prone Fields | ◐ |
| Cold Soils/No-Till                  | ● |
| Delayed Harvest                     | ★ |
| Move South/Early Hybrid             | ● |
| Move North/Full Season Hybrid       | ● |
| Silage Appeal                       | ● |
| General Adaptation West             | ● |
| General Adaptation Central          | ★ |
| General Adaptation East             | ★ |

### GENERAL CHARACTERISTICS

|                           |               |
|---------------------------|---------------|
| Plant Height              | Medium        |
| Ear Height                | Medium        |
| Ear Type                  | Fixed         |
| Vigor                     | 8             |
| Dry Down                  | 7             |
| Disease Tolerance         | 8             |
| Tar Spot                  | 8             |
| Roots                     | 7             |
| Stalks                    | 8             |
| Minimum Till              | 6             |
| Test Weight               | 7             |
| Population                | 35-38k        |
| Herbicide Sensitivity     | NR            |
| Optional Planting Range   | 35,000-40,000 |
| Kernel Rows               | 16-18         |
| Cob Color                 | Pink          |
| Staygreen                 | ●             |
| Northern Corn Leaf Blight | ★             |
| Southern Corn Leaf Blight | NR            |
| GLS                       | ★             |
| Southern Rust             | ●             |
| Gloss' Wilt               | ●             |

#### KEY Positioning/Characteristics

- ★ Highly recommended/Predicted above average
- Recommended/Predicted average
- ◐ Use caution/Predicted below average
- Not recommended
- ■ Data not available

Ratings: 1-9, 9 = Best

NA: Data not available

NR: Not rated

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

**Important: Always read and follow label and bag tag instructions; only those labeled as tolerant to glufosinate may be sprayed with glufosinate ammonium based herbicides.** Agrisure<sup>®</sup> Above, Duracade<sup>®</sup>, DuracadeViptera<sup>™</sup>, and Viptera<sup>®</sup>, are trademarks of a Syngenta Group Company. More information about Duracade<sup>®</sup> is available at [www.biotradestatus.com](http://www.biotradestatus.com).

**LIBERTY LINK** Seed products with the LibertyLink<sup>®</sup> (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-

selective, post-emergent weed control of Liberty<sup>®</sup> herbicide for optimum yield and excellent weed control. LibertyLink<sup>®</sup>, Liberty<sup>®</sup> and the Water Droplet logo are registered trademarks of BASF.
